We recommend Oldfield Tires—and we stand squarely back of their quality. We know what Barney Oldfield's experience means in tire design and construction—and these are proven by the wonderful mileage and service Oldfield's are giving.

### At Wichita

34,525 miles on Oldfields without a change! And over Kansas roads in mid-winter—deeply rutted, muddy and jagged with ice. In this test the car equipped all round with Oldfields, was driven day and night. At 34,525 miles one tire gave up, the three others were still fit for hundreds of miles of service. Mayor Kemp, of Wichita was official observer and made affidavit to the mileage and service given by Oldfields.
